## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 29, 2004 has been entered.

### ***Response to Amendment***

Claims 1-4,6-10,13,15-25 are pending.

Claims 5,11,12 and 14 have been canceled.

The 35 USC 112 second paragraph rejection of claims 1-24 has been withdrawn based on applicant's amendment filed on June 29, 2004.

The 35 USC 102 and 103 rejections of claims 1-24 have been withdrawn based on applicant's amendment filed on June 29, 2004.

### ***Response to Arguments***

Applicant's arguments, see pages 10 and 11, filed June 29, 2004, with respect to claims 1-24 have been fully considered and are persuasive. The rejection of claims 1-24 has been withdrawn.

### ***Allowable Subject Matter***

Claims 1-4,6-10,13,15-25 are allowed.

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's amendment, arguments and conducting an updated search none of the cited prior arts alone or in combination discloses the claimed optical module having the cited limitation of independent claims 1,16 and 25, in particular the claimed distance of the fixed end surface of the etalon on the substrate to an optical axis of a light transmitting through the etalon, which reduces the temperature dependency of the etalon, thereby operating stably against changes in temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
